

Dear Professor,

As we begin to approach the start of the fall semester, I wanted to quickly remind you that you need to create your new Modified Mastering course and pair it with your Blackboard course. Please be aware that in order to start this process, you will need to have your Blackboard course shell available and also have an account for www.pearsonmylabsandmastering.com.

If you are not sure if you have an account for this website or if you need an account, please let me know ASAP.

Some notes in setting up your Modified Mastering Course:

1. Please remember that if you are planning on copying a course already created, it must be in your PearsonMyLabandMastering account, not in your regular Mastering account (i.e. www.masteringchemistry.com, www.masteringbiology.com, etc.)
2. You can always copy assignments into your linked course from regular Mastering.

I have included multiple links for you below to assist you with your course creation. The first link is for the Blackboard Integration Guide which gives you step-by-steps directions for working in Modified Mastering, as well as access to all of the Blackboard/Modified Mastering Videos.

The rest of the links are for YouTube videos that guide you through many different processes in linking Blackboard and Modified Mastering. I have also included the links to individual videos that I think are the most useful.

[Blackboard Integration Guide for Modified Mastering](#)

[Video Tutorials \(YouTube\) – All Videos](#)

[Adding the Pearson MyLab/Mastering Tool to your Blackboard Account](#)

[Pairing your Pearson Account with Blackboard](#)

[Pairing a Blackboard Course with a Mastering Course](#) (New Course)

[Pairing a Blackboard Course with a Copy of an Existing Modified Mastering Course](#)

[Adding Pearson Content/Links to your Blackboard Course](#)

[Set-Up Auto Grade Sync from Mastering to Blackboard Learn](#)

[Student Process for Registering for a Modified Mastering Course in Blackboard](#)

Please know that I am available to help you with these at any time: by phone, email, or appointment. It is important that you have these courses created and grade sync set-up far in advance of the semester to minimize any difficulties you or your students may encounter. Even if you have used Modified Mastering before, I strongly recommend that you watch these videos to reinforce the correct steps to take to create your course. As always,

please don't hesitate to let me know if you have any questions or concerns. I look forward to partnering with you and your students this year for continued success.

Thanks,

A handwritten signature in black ink, appearing to read "David Berg". The signature is stylized and cursive.
